

I will have you, the Senior District Judge of Buffalo, know that I fully intend on getting the international court of Europe after [Victim 1] of Minneapolis due to his obvious connections to Hamas. You are allowing John Sinatra to cover for him by putting only his initials on paperwork. I will be more than happy to do what I can to make [Victim 1] face a European international court lawsuit concerning his withholding of information about Hamas. His client Benjamin Ryan's attorney client privileges are quite a compromise to peace with the Israel/Hamas issue.

There is nothing stopping every last US Appeals Court across the country, many of them whose addresses I have, from forging my handwriting exchanging letters with each other suggesting that it is time the Robert H Jackson US Courthouse completely privatizes every last courtroom and every last US District Judge at that Buffalo NY courthouse becomes a privately contracted international lawyer. What a waste of taxpayers' money the entire Robert H Jackson US Courthouse is in its current form. Not one local resident of the Western New York region has ever seen one single federal judge of that courthouse on WIVB, WGRZ, or WKBL. No federal US District Judge of the Robert H Jackson US Courthouse appears to be worth dealing with in the future, so it's legally possible all US Appeals Courts across the entire country, whose addresses I do in fact have, are forging my handwriting sending notes to each other suggesting making an example out of the Robert H Jackson US Courthouse, completely defunding it, and making all of its judges become privately contracted international

2

lawyers to generate revenue for every last US Appeals Court to fix everything every district court did wrong during the Biden years. "Sinatra" is a has been name from the 1920s so might we suggest his courtroom goes the way of Stephen Colbert's recently cancelled show; as FM radio has said recently happened.

All US Appeals Courts across the entire country will know about my lawsuit against John Sinatra for things like voter suppression since he never helped me get a 2024 ballot to vote for Donald Trump. Donald Trump will not like hearing this once every US Appeals Court hears about it, so John Sinatra's job as a judge can go the way of former Congressman Tom Reed's job as a Congressman since John didn't have it in him to say a simple time served no more probation.

Not once in 3.5 years was anybody sensitive enough to think about trying to reconnect me and Benjamin [redacted] Frank Passafiume, Fonda Kubiak, and Alexander Anzalone will go down as complacent unhelpful bureaucrats to every last US Appeals Court across the country. I look forward to doing what I can to make your tyrannical courthouse finally press cyberstalking charges on Katie [redacted] and Kevin Dougherty. I look forward to getting the European international court after [Victim 1] for withholding information about Hamas. Not once did that so called defense lawyer do anything to let up on me. I look forward to informing all US Appeals Courts that Buffalo NY federal probation shoves everyone back in jail no matter what, they fail everybody, and they should see a nationwide defunding, too.
