

Creepy Letters I Received From Luke Wenke - Letter #2:

The following letter was delivered to a family member's residence in September 2023. Much like the previous letter, you'll notice that the correspondence features a Buffalo, New York postmark and an out-of-state (Minnesota) return address. The postmark proves that the letter was sent in New York State, thereby also proving that the return address is false. I believe the return address belongs to another one of Luke Wenke's stalking/harassment victims. The letter itself instructs me to arrange payment with a different victim to help Luke Wenke marry his romantic obsession, Ryan, via Montana's "double proxy marriage" laws, which permit individuals to marry one another by having others stand in for them during the ceremony.

I received this letter roughly a month after the federal judge overseeing Luke Wenke's case banned Wenke from contacting me (or anyone associated with me) in any way, shape, or form as a condition of his probation. Despite this letter constituting an obvious violation of the contact ban, **Luke Wenke was never convicted accordingly**, because the judge agreed to drop a violation charge associated with this unwanted correspondence in exchange for Wenke's guilty plea to a separate violation charge (one out of four violation charges, actually) for contacting other victims.
