### CAUTION - EXTERNAL:

Carl Paladino used to do email chains with everyone who ever emailed him or met him for 5 seconds. Yeah hi you all know me too. I have a Constitutional right to air my grievances as loudly as I fucking want to.

I am sending this to Carl AND his son AND George AND David AND Nick Langworthy AND John AND Bill AND Laurie. Good enough for now.

I have seen Carl call my cousin [REDACTED] a faggot. 10 years ago at Lincoln Park. I get to speak as freely as I feel like to. I know Carl's son knows [REDACTED] too. George met my mother. David and his wife watched my debate in Olean in 2019 and David has been face to face with me too ever since Johnny Rockenstire's Facebook group. Everyone has seen Carl and David on Financial Guys. I knew James who worked for Tom Reed, I do not know Nick. Laurie put one of my stupid coroner signs in her yard back in the better days. John if you can't accept me emailing you by now then go fuck yourself. If John can't accept me emailing him by now treating him like a public official then he can quit and replace himself with an 18 year old law student intern since all Judges do is play Battleship with the Sentencing Guidelines. I think I'm being logical by mixing all of these people right now in one message, and I think I'm right to be as emotional as I want to be with all of you and get all legal about it and call it the Constitutional right to air grievances and then bring up the possibility of hacked electronic devices so I never again get picked up over a speech crime.

I have been yelling and screaming all day. Fuck the Olean Police. Today is my last straw with them. My house is a wreck right now to no doing of anyone in my vicinity and the Olean Police won't answer a phone call back from me because I want my house fingerprinted. I am going to sue the Olean Police. I will put my \$200,000 wrongful incarceration check on them. I'll say the Olean Police hacked my phone January 2022 and the Olean Police made CGIs of me at a 2020 protest I never even went to. Then I'll say where is the 1/27/22 phone call where Olean Police lied to me. So I want state troopers to fingerprint my house now. I want my house fixed NOW. Why should I have to clean a wrecked house damaged by people on my don't contact list? Cheyenne [REDACTED] is now a court admissible evidence against Katie [REDACTED]'s people go wrecking my house while I was away during the Biden bullshit years.

I can't drive for rideshare companies anymore. All over an almost 4 year old email to a stranger which gave me a felony. I am doing something else now, and so far in the first week I am wondering about the company's ability to even keep itself organized.

Laurie I want to sit down with you and Matt Keller. You both know I have a positive work history. Dakota my next door neighbor and a lot of others are ready to help me take down the stupid old front porch on my house.

I am sick of feeling more fucked over than anything I did to anyone out in Minnesota who I never even met. I see Donald Trump trying to get rid of his felony. I don't blame him. The

Biden years were fucking retarded. Hunter gets a pardon but fuck everyone else.

I want a convention right now I can pay for in Olean myself since I'm not a piece of shit who dedicated his entire life to living off SNAP, and we need to start by redoing the infraction that happened to me. Homeland Security Long Distance Order of Protection program. Now there is a law enforcement program to rehandle an infraction like mine without fucking over the defendant harder than anything that happened to the plaintiff. I want this fucking felony off my record. Why was I ever the Cattaraugus County Libertarian Chairman? What a retarded fucking party. It doesn't get us laid, it doesn't get us paid, it doesn't win elections, it doesn't win court cases. Fuck Libertarians. Larry Sharpe can go do something real. I'm not helping his shit in 2026.

I am going to sue the entire Olean Police force off the face of the Earth since they lied to me and since they are all a bunch of bitches too afraid to fingerprint my damaged house. Today is my last straw with the Olean Police. Salamanca has a police commission supervising the Salamanca Police. Where is Olean's? How easy to make \$1 million off my house. Carl never saw \$1 million made from private sector income. He is a NY state welfare office landlord. Carl does not get to call me a faggot like he called my cousin [REDACTED]. I will call Carl a pedophile right to his face since that's who he hired for his failed 2022 campaign. None of you ever saw me mad before. Carl the whole fucking region has seen videos of you in tears too. You once said "let's have dinner" to me specifically. During better days. I get to talk shit in 2025.

I am not kissing ass these days. Either laws change or this country can eat shit and fuck off. Keep the government shutdown going forever. Nobody needs the government. I am not alone in people who have been fucked over. Look at Donald Trump trying to get rid of his felony. Meanwhile John just sentenced someone from Jamestown for sex trafficking when John is related to Peter Gerace.

America is a retarded bunch of bullshit ever since Covid. I know I am not alone. I am the victim, not [Victim 1] of Minneapolis. Freedom of speech over possibly hacked electronic devices to say [V1] is a retarded piece of garbage.

That's it. I have a Constitutional right to air my grievances so none of you people in the world of public officials can scold me when you've known me for years as it is. Oh I know my place in things big fucking time these days. Now I'm on speaking terms with the actor who played Jesus in The Chosen and he met Pope Leo XIV. My great great grandfather Martinelli played organ for a Pope over a century ago. So good, all the Jesus Jesus Jesus stuff our minds do while in prison means something then. I know my place in Christian world now, not just the world of assholes on the internet with political opinions.

I KNOW MY PLACE IN THINGS AND I AM NOT EVER GOING TO GO THE FUCK AWAY.

Nick where are you. You had better be accessible to the standard motherfuckers of the world with advanced federal issues and not a pompous powdered wig wearing motherfucker who is why the Capitol Riot happened. Again Tom Reed had an employee named James who knew me when I was county chairman. We went to Tasta Pizza together.

John you pay Katie to work for your court and you pay Katie to be your little Monica

Lewinsky. Fucking admit it. If you would like to dispute this claim then you may sit down with me for the first time in the history of ever.

I can't take my end of things anymore. I shouldn't be 33 dealing with the living circumstances I am dealing with right now. I paid for my house itself and the GOVERNMENT wronged me in the long run. I don't think [V1] is a real person. I can say this all I want. Fuck him. But I know there is a common good thing at play here, too. I took notes to myself while in there about what to do about things next. You will all hear from me again over this. Today is my last straw over the Olean Police and that's all you need to know. Keep the government shutdown going forever, nobody needs it. Starting with the Olean Police.

- Luke Wenke  
Permanently Former Cattaraugus County Libertarian Chairman

PS, I know more about extraterrestrials than the stupid fucking assholes at the fucking FBI do. I made more money than they do when I was an Uber driver and I will keep making more money than they do. FBI should merge with CIA.

PSS, don't hack each other's electronic devices and hold false proxy votes for each other among yourselves about what to do with me; or anybody.
