22-CR-35

Dear John Sinatra,

It is another letter from me, trying to prove you wrong when you say I need to learn how to live and work with people around me. I have decided that the reality around me is that everyone has no option but to live and work with me, especially after this extraordinary federal level personal life intrusion on my end.

You know the gold mine of ideas I gave you after my first letter to you from here. Now I will help Sinatra family interests even more. First of all, I learned at **Alkwood** that there is a shortage of federal halfway houses. I recommend **Ellicottville** over **Olean**. Canadian tourists aren't Googling the names of their ski lift operators, Olean never had it in them to accept the reality of Genesis House recovering drug addicts. So Ellicottville's more forgiving environment over Olean's nosey behavior. **Carl Paladino** recently moved to Florida and nobody knows who William Paladino is so Ellicott Development is a threat for competition from Sinatra interests. \$50 tips all over the place at Ellicottville's ski resorts and hotels waiting to happen for people like Kenneth Ritchie who I met at CCA. 25 years for touching a 3 year old. I don't think he'll get his job at Bank of America back.

David Rudoff has my blessing to indict my father Kevin [REDACTED] your Sinatra relations Buffalo tenant, on any and all financial federal crimes he likes after my father's extraordinary debt is audited. A simple indictment on him will help the cause of justice on so many fronts. His first of four wives my mother Janet (whose phone number you have now) is not happy about the illegal suggestions he is making surrounding my fate with [probation officer]. My father did not answer my phone calls at all last year while like this nor did he even raise me directly. I visited my grandparents (his parents) every other weekend, not him. My mother's mother the village level judge you know about always helped get "blood out of a stone" by helping the cause of my father always losing in family court back in the day. A mere federal financial indictment on him will encourage him

to do legitimate work for one day. Also so he doesn't fall behind in rent payments to your Sinatra relation as he IS prone to do. Keep in mind his 4th and current wife [REDACTED] only got her citizenship last year after this happened to me after more than ten years of being here. She is from Marrakech, Morocco. I taught her how to drive in 2016 so she could get her NY driver's license.

There's your Henry Kissinger-style "Power is the ultimate aphrodisiac" move from me. After you initiate an audit and indictment on my father, you can call his first wife and take her to George Borrell's next fundraiser and tell her about it. You're welcome. You have had my inner personal blessing to do this since at least May and June but Alex wouldn't let me write a real letter to you last year. Oh also my father has illegally voted in Florida while living in NY before.

I am concerned about Katie [REDACTED]. My mother called NY state troopers on her last year and now there is NY state trooper paperwork proof saying Katie had Schizophrenia and appeared to be on drugs at the front door. She and [REDACTED] [probation officer] worked together in September trying to get me arrested illegally claiming old license plates of mine that were legally turned in last year and I'm sure there is still [REDACTED] police proof of this too. My mother said Katie had my FBI Discovery last year before any of us did. Marianne Mariano did not trust Katie last year when she met Katie face to face. I am concerned Katie may illegally produce fingerprints of mine and smother them all over her car and this why we need to get [Victim 1] audited so we know who his employees are.

I would also love to see Michael Crick of [REDACTED] in Salamanca subpoena'd into this as a witness. He is on the Salamanca Zoning Board and he is a Lividate NY accredited medium intimately aware of my situation with Benjamin [REDACTED] since July 2020. Nobody wants to be in their 60s with no relationship like Michael is and I am sick of being lead on with no light at the end of the tunnel yet. Horizons Mental Health employees said we have a mental health right to sexual needs and so far this entire case against me has been a human rights violation on me. Felonies are an unconstitutional phenomenon damning the Freedom To Assemble. Time for a Constitutional Amendment banning them.

I hope the next court appearance solves problems between everyone positively. I think it can. ②
