

①

The Pro Se Litigation Unit at the Robert H. Jackson U.S. Courthouse has absolutely heard from me before and responded to me before. I do not know who at the Pro Se Litigation Unit reads these but I am aware of how tense are things these days up there given Judge Richard Arcara's investigation against him concerning sleeping during trials, and Peter Grazi's dehumanizing gag orders.

Whatever paperwork is needed to pursue lawsuits, please send it to my mother Janet McCaul at [REDACTED] Little Valley NY 14755. Her phone number is [REDACTED]. I recall a year ago receiving an information packet from the Pro Se Litigation Unit. If that could be included too it would be appreciated.

Nothing is official until that paperwork is filed as I'm aware people in my present situation have 3 strikes and then they're out. The lawsuits I am after are over-forged paperwork concerns from John L. Sinatra Jr.'s courtroom as Frank Passafiume can verify that a recent court decision was made concerning me without anybody present. The second being my concern that the Robert H. Jackson U.S. Courthouse has a sexism issue against women due to the extraordinary amount of testosterone holding everyone captive at that building right now. There are other reasons to sue such as my mother's boyfriend Chris suing the VA for racism against his Native American heritage, and my mother's share of her late brother's estate taking forever due to conflicts of interest. Might I also add I wanted an absentee ballot for the 2024 election, I made it known, and I'm calling it voter suppression. Anybody could be suing the city of Olean right now for its throwing of toxic waste into the Allegheny River which goes down to the Mississippi.

I recently received legal mail from Jay Pusiasich and US Appeals Judge Debra Ann Livingston concerning my motion to Appeal as Frank Passafiume can also confirm.

(2)

I think it is unusual to have an officer hand us legal mail directly right at our room's doors (I am in P2-33) as it's a violation of attorney client privileges. I recently caught the person formerly in P2-36 getting in cocaine with an officer's help. I have stated that if I am illegally moved out of this facility due to forged and edited paperwork reasons I will sue and get cooperating officers fired. It is for these reasons that I ask you to send all of my requested paperwork material to my mother at the address I mentioned earlier.

Thank you for everything,
- Luke Wenke

PS - please consider my opinion that federal probation shoves everyone back in jail no matter what and thereby cramming the court calendars. Deflect any potential presidential administration defunding of the courts - efforts towards probation. We need the Pro Se courts. I have Allegany/Limestone alumni lawyer Paul Petruzzini's attention as it is.
