**CAUTION - EXTERNAL:**

Yes they are slowly building up so the whole Sinatra family, which is probably embezzling itself into Hollywood, can get ready for this little mock Judge Judy episode.

Cheyenne Redeye is a Seneca native of Salamanca and I can Pro Se sue SNI courts because they aren't interpreting family court law to her liking. And then what she will do is provide paperwork proof of the fact that she was once a neighbor of mine on [REDACTED] and she has seen Katie [REDACTED] going in and out of my house breaking things. Cheyenne will then help me get the whole neighborhood on board with this agenda item. And then my house will magically start fixing itself very quickly and it will become the \$1 million Cattaraugus County Libertarian Party Museum with a life size cartoon picture of Judge Sinatra in the entrance saying "it all ended here".

You watch what I do in the long run. I am personally identifying this as the Trump Transgression Era. Suing courts in other courts is what happens when families of judges face judges in the 21st century. Judge Giardini's family and Judge Sinatra's family are supposed to host competing Italian food festivals, not the shit we did for 45 months.

By the way Dee Watson of the North Carolina Libertarian Party once lived in Salamanca. Wow things are going in MY favor very much.

How about the Sinatra children of the dinner table get busy preparing an international lawsuit at The Hague of The Netherlands demanding that North and South America be acknowledged as the United States of America and that they together recognize Donald Trump as their joint executive. From Alaska to Argentina, Sinatra dinner table members will bring those two continents together for a USA selfie in the Gulf of America.

No drugs in the vicinity of Cheyenne Redeye will have any effect on her legal pursuits due to Peter Gerace of the Sinatra family's production of drugs being stored on Seneca territory in Salamanca with Cheyenne's family's permission.

Ancient Israel had ecstasy. Legalize bath salts.
