Hello everyone,

I wanted to convey an update to you all before court so you are able to consider developments.

- The referral for AOT was submitted, and I have a message out to the Coordinator asking what to expect next.
- Endeavor has confirmed that they are planning to move forward with getting Wenke started with services once Wenke has completed the initial evaluation with a AOT psychiatrist.
- The Program Manager of the Police Behavioral Health Team (also at Endeavor, this is the team that conducted the Threat Assessment eval) has indicated that Wenke's case will be presented to the Erie County Threat Advisory Committee this coming Tuesday. This is a proactive effort in the event Wenke does not qualify for AOT. When I asked her for the implications of this, she explained: We utilize ECTAC when we have someone who may need some more interventions. The committee is run by BHT and myself and is made up of law enforcement, Non-profits, private sectors and county/federal representations. If AOT is not an option hopefully the committee can look at alternative options
- Wenke did report to ECMC following his release. He was reportedly assessed for immediate risk of harm and released after also meeting with a social worker. I have the direct number of the LCSW that met with him but she has not returned my calls. Any written report could take up to 30 days to be produced, and a general call to the hospital indicated that these are not psych evals but rather a brief screen to see if someone should be admitted for a 72-hour hold.
- Wenke has been extremely active on social media. Below are examples of posts that may cause concern for his continued release.

Sylvia Browne said by the end of the century, the veil thins and we can all see spirits. What this means is that when you murder someone, they can just testify against you in court on their own. The murdered become their own witness. Thanks to what happened to me, selenite crystals have become quite a phenomenon among federal officials. Mental Health Analyses and Public Safety Threat Potentiality Interviews are operations performed by federal courts. Using selenite crystals will help establish "Deceased Victim Negotiations" with courts across the country and US military veteran Steven Carrillo of the American boogaloo sensation and everyone in his world sure could use that info because their bad karma is holding a lot of people back still, including me.

One day we can just 3D print new human bodies for anyone who happens to be murdered against their own will. My god so many new developments coming by the end of the century as predicted by Sylvia Browne.

You can't legally prove who is behind an electronic device but this God Is Watching stuff is real. He will have it legally defeated but because he deliberately threatened him the collective consciousness will swarm him superstitiously way longer than he realizes. His own possessions will be threatened. Karmic energy is real. He is going to be shown by the "God" sensation that there is an afterlife. Nobody who actually believes in an afterlife believes in murder because you're going to have to answer to your murder victims one day as equal spirits.

@LMWenke

Horizons mental health rights agree, we have a right to be fucking pissed off about bullshit. **We have rights to refuse medication.**

We have a right to be annoyed at ECMC social workers who illegally diagnose people, and diagnose them with something a court trusted analyst diagnosed someone with summer 2023. Investigation coming ECMC's way soon enough. I am documented on cameras as not being violent at all.

@ProsperCLT2023 and @ElectDeeWatson of @LPNC have fond memories of someone from their group once known as "Anarcho Gun Guy". He met @GovGaryJohnson at 14 years old in 2012. According to folklore he then became Gary Johnson's accessory to **murder** as mortal combat for the Drug War.

Nakib and Vince, please see the attached Facebook posts made by Luke since his release.

I also wanted to let the court know to expect a letter from victim Katie [Redacted], as she sent one over the weekend.

Matt, I'll put together a document that includes all of Wenke's Facebook posts since his release on Friday, but the meantime, here are the ones you should share with Judge Sinatra and the Marshals.

Karma means going to Cattaraugus County Jail and helping your brother [Redacted]'s brother Michael [Redacted] reunite with his father's family so Uncle [Redacted] can see his two nieces who live two streets away from my Olean house. Karma means federal headquarters have placed a loudspeaker system on my ankle while at my own father's place so I can say things like "Audit The Entire Libertarian National Delegate Body" as further court documented evidence has me saying. Karmic work currently in continuation as we speak. Donald Trump appointed judges need to shove their big Italian dicks in moody ECMC mental health analysts who are very judgmental of people's personal situations.

Kevin Dougherty can have me call into his show and I will gladly say in my own voice "Donald Trump Judge John Sinatra does not have a significant other on his Wikipedia" because I have said that to plenty of people, inmates and officers and face to face at that, at Cattaraugus County Jail because I sympathized and related with this judge when I looked him up in April after getting home. I don't damn people as hard as they think I do. Time for me to appear on that Life22 show and I'll gladly say everything I have said about everyone over voice. Learn how feelings work.

Prosecutors will start taking my side in totality. Whatever everyone does to me at this point, God makes happen right back. I don't have to physically do anything to make anyone's karma come their way. Damn someone to solitude by abuse of the law, you're going to be a judge in your 50s with no significant other on your Wikipedia when your very caring defendant noticed a similar life experience way back this early spring.
